Periodontology Foundation Selects The Sherwood Group, Inc. to Provide Accounting Support

DEERFIELD, IL -- The Sherwood Group, Inc., a full-service association management firm providing headquarters solutions and consulting to not-for-profit associations and professional societies, has been selected by the American Academy of Periodontology Foundation (AAPF) to provide accounting services, effective September 1.

The AAPF's mission is to improve the periodontal and general health of the public through increasing public and professional knowledge of periodontal diseases and their therapies, stimulating basic and clinical research to generate new knowledge, and enhancing educational programs at all levels to create opportunities in periodontal education and practice. AAPF was created in 1990 by the American Academy of Periodontology, an 8,000-member association of dental specialists.

"Sherwood's flexible service structure allows nonprofit organizations to extend their in-house staff capabilities with our specialists in accounting, meeting services and communications," said Scott Freeman, CPA, Sherwood's Chief Financial Officer. "We're pleased that the AAPF found Sherwood to be the right match for their financial management needs."

The Sherwood Group holds dual accreditation as a provider of best-practices services for associations, earning charter accreditation from the AMC Institute and the American Society for Association Executives.

The Sherwood Group provides staff and headquarters solutions to organizations in healthcare, science and technology. The firm was founded in 1979 to support associations whose members share a passion for their fields and a commitment to professional development, advocacy and service to their colleagues and communities. For more information, contact Vice President Greg Schultz at +1-847-205-2646 or gschultz@sherwood-group.com.
