Society for Adolescent Medicine Selects The Sherwood Group, Inc. to Provide Full-Service Management

DEERFIELD, IL – The board of directors of the Society for Adolescent Medicine has selected The Sherwood Group, Inc. to provide full service staff and headquarters solutions to the society, effective October 1.

SAM's mission is to advance the health and well-being of adolescents through education, research, clinical services and advocacy activities. SAM was founded in 1968 on the premise that health is more than the absence of disease. To that end, SAM's international multidisciplinary membership promotes positive youth development, illness prevention, achievement of individual potential and a sense of physical, mental and social well-being.

Sherwood Group Vice President Greg Schultz will serve as the firm's Managing Partner for the organization, responsible for identifying an executive director who will provide strategic and administrative leadership for the staff and board.

"We are honored to have the opportunity to work with this important and vibrant organization," Schultz said. "Our plan is to help the board focus on those things that will grow the SAM community and add value and efficiency to the organization's operation, while preserving those things that make a specialty organization like SAM feel like home to members."

The Sherwood Group provides staff and headquarters solutions to national and international organizations representing social and health sciences, energy and technology. The firm was founded in 1979 to support associations whose members share a passion for their fields and a commitment to professional development, advocacy and service to their colleagues and communities. The Sherwood Group earned charter accreditation from the AMC Institute and the American Society for Association Executives. For more information, contact Vice President Greg Schultz at +1-847-205-2646 or gschultz@sherwood-group.com.
